Platforma WEB of SCIENCE

The screenshot displays the Web of Science interface. At the top, a navigation bar includes links for 'Web of Science', 'InCites', 'Journal Citation Reports', 'Essential Science Indicators', 'EndNote', and 'Publons'. On the right side of this bar are user options: 'Victor', 'Help', and 'English'. Below the navigation bar, the 'Web of Science' logo is on the left, and the 'Clarivate Analytics' logo is on the right. A search bar is present, with 'Tools', 'Searches and alerts', 'Search History', and 'Marked List' options to its right. The main content area features a 'Select a database' dropdown menu currently set to 'All Databases'. The dropdown list includes: 'Web of Science Core Collection', 'BIOSIS Citation Index', 'Current Contents Connect', 'Data Citation Index', 'Derwent Innovations Index', 'KCI-Korean Journal Database', 'MEDLINE®', 'Russian Science Citation Index', 'SciELO Citation Index', and 'Zoological Record'. A 'Learn More' link is positioned to the right of the dropdown. A green button labeled 'Get one-click access to full-text' is located in the top right corner of the main content area. Below the dropdown, there is a 'Basic Search' section with an input field containing 'Example: oil spill' and a 'Timespan' section with a dropdown set to 'All years (1950 - 2018)'. A 'More settings' dropdown is at the bottom left of this section. On the right side, there is a 'Search tips' section. At the bottom of the page, there are links for 'ANELIS PLUS', 'What's new', 'Feedback and support', and 'Resources'. The Clarivate Analytics logo is in the bottom left corner. A blue banner at the very bottom contains the text: 'Download Kopernio for one-click access to full-text PDFs – break free from login forms, re-directs & pop-ups'.

Search the world's leading scholarly journals, books, and proceedings in the sciences, social sciences, and arts and humanities and navigate the full citation network.

- All cited references for all publications are fully indexed and searchable.
- Search across all authors and all author affiliations.
- Track citation activity with Citation Alerts.
- See citation activity and trends graphically with Citation Report.
- Use Analyze Results to identify trends and publication patterns.

Directory of Open Access Journals (DOAJ)

DOAJ is a community-curated online directory that indexes and provides access to high quality, open access, peer-reviewed journals. DOAJ is independent. All funding is via donations, 40% of which comes from [sponsors](#) and 60% from [members and publisher members](#). All DOAJ services are free of charge including being indexed in DOAJ. All data is freely available.

DOAJ operates an education and outreach program across the globe, focussing on improving the quality of applications submitted.

Journal Application Form

Before you start

Read our [information for publishers](#), review your website and make sure that your journal fulfills all the criteria.

If you know of a peer-reviewed journal that should be included in DOAJ, please ask its publisher or editor to complete this form.

We provide some [guidance on the information we are looking for](#) but that list is by no means exhaustive. Applicants are encouraged to complete the form clearly and honestly. If you do not understand a question, you can ask for help by contacting us.

It is not possible to save your progress or for us to send you a confirmation email (although we will show you a confirmation screen if the application has been submitted successfully) so, we recommend you gather the information you need first. We have [created a spreadsheet guide of the form](#), and provided some other tips to help you. Guides are also [available in other languages](#) (العربية, 中文, فارسی, français, Bahasa Indonesia, Italiano, Polski, Português, Română, Русский, Español, Türkçe, Українська).

Creative Commons/ 6 Licenses

<https://creativecommons.org/licenses/?lang=ro>

The Licenses

Attribution

CC BY

This license lets others distribute, remix, tweak, and build upon your work, even commercially, as long as they credit you for the original creation. This is the most accommodating of licenses offered. Recommended for maximum dissemination and use of licensed materials.

Creative Commons/ Licenses (2)

Attribution-ShareAlike

CC BY-SA

This license lets others remix, tweak, and build upon your work even for commercial purposes, as long as they credit you and license their new creations under the identical terms. This license is often compared to “copyleft” free and open source software licenses. All new works based on yours will carry the same license, so any derivatives will also allow commercial use. This is the license used by Wikipedia, and is recommended for materials that would benefit from incorporating content from Wikipedia and similarly licensed projects.

Creative Commons/ Licenses (3)

Attribution-NonCommercial

CC BY-NC

This license allows for redistribution, commercial and non-commercial, as long as it is passed along unchanged and in whole, with credit to you.

Creative Commons/ Licenses (4)

Attribution-NonCommercial

CC BY-NC

This license lets others remix, tweak, and build upon your work non-commercially, and although their new works must also acknowledge you and be non-commercial, they don't have to license their derivative works on the same terms.

Creative Commons/ Licenses (5)

Attribution-NonCommercial-ShareAlike

CC BY-NC-SA

This license lets others remix, tweak, and build upon your work non-commercially, as long as they credit you and license their new creations under the identical terms.

Creative Commons/ Licenses (6)

Attribution-NonCommercial-NoDerivs

CC BY-NC-ND

This license is the most restrictive of our six main licenses, only allowing others to download your works and share them with others as long as they credit you, but they can't change them in any way or use them commercially.

Publication edited with the support of MCI Ministry of Research and Innovation - Romania

International Journal of Conservation Science (IJCS) is a high quality peer-reviewed journal devoted to the publication of original research papers in applied conservation science and its broad range of applications. IJCS is an open access journal. All content is freely available without charge to any user or his/her institution.

See current issue: Volume 9, Issue 3, 2018
July-September 2018

IJCS publishes original research papers, review articles, book and project reviews in all areas dedicated to applied conservation of natural and cultural heritage and other related areas of environmental science and engineering.
Our topics cover all disciplines and branches of modern scientific conservation. To see more go to [[Aims & Scope](#)].

Starting with Volume 9, 2018, for each accepted manuscript an **Article Publication Charge** will be applied. **Discount vouchers** are available if the author provides a proper motivation letter. **Outstanding articles are published for free.**

Since 2015 indexed by WOS-ESCI

indexed by Elsevier SCOPUS!

Journal Metrics

CiteScore (2016): 0.78 (144 citation/184 documents)
SJR (SCImago Journal Rank) (2015): 0.244
SNIP (Source Normalized Impact per Paper) (2015): 0.657
CiteScore rank (In category: Conservation): #5/53

IJCS published until March 2018 more than: **450 articles** from **45 countries**. The two main fields of the journal are represented in the graph below and the distribution by countries on the right side [click on image for details].

IJCS articles are cited in International Databases!
